3 Grammar

The Subjunctive

We use the subjunctive to stress the importance or urgency of an action. The subjunctive uses the base form of a verb.

The manager insisted that he **work** late.

It is important that you **be** at the meeting.

The subjunctive is used with certain verbs and expressions, like the following:

ask	request	it is essential
demand	require	it is imperative
insist	suggest	it is important
recommend	urge	it is necessary

The subjunctive follows the sentence pattern:

verb or expression + *that* + subject + (*not*) base verb

It is essential that you **dress** appropriately.

She **asked** that we **not be** late.

I'd Like You + Infinitive / I Want You + Infinitive

Two common phrases used to express a desire that someone do something are

I'd like you + infinitive and *I want you + infinitive*.

I'd like you to help with this project.

I want you to finish the report this afternoon.

A. Rearrange the words and phrases to form sentences.

 asks / I work on the weekend / my manager often / that
My manager often asks that I work on the weekend.

1. he / that / bring his résumé to the interview / he recommended
2. I / to tell me / want / you / about any problems you have
3. that / it is imperative / wash his hands before entering the operating room / the doctor
4. not / demanded / the boss / he / be late again / that
5. that / you go home early / I / if you're not feeling well / insist
6. you / applying for the job / like / to consider / I'd
7. I look for a job in sales / suggested / that / my job counselor
8. not / that you / quit your job before you find a new one / it is essential
9. the waiting room / the nurse / that / be kept quiet / requests
10. that / race car drivers / it is important / the necessary safety precautions / take

B. Look at the pictures. What do you think is being said? Write a sentence for each using the subjunctive or *I'd like you / I want you + infinitive*.

📌 *It is essential that we not be late for the meeting.*

C. Write sentences for these situations. Use the subjunctive and *I'd like you / I want you + infinitive*.

1. Imagine you are a doctor speaking with a patient who has a very unhealthy lifestyle. The patient smokes, eats lots of fast food, doesn't get any exercise, and doesn't get enough sleep. What would you say to this patient?
2. Imagine you are a teacher speaking with a student who is doing badly in your class. The student is not studying for tests, is talking in class, is not doing homework, and does not take notes in class. What would you say to this student?

4 Conversation

Adnan: Hey, Rob. I'm **in a bind**. Can you **help me out**?

Rob: What's the problem?

Adnan: I'm supposed to work tomorrow, but there's something I've got to do. Could you **cover** for me?

Rob: You just asked me to cover for you on Monday. What's so important that I have to keep doing your job?

Adnan: OK, I'll tell you, but I'd appreciate it if you would **keep it to yourself**. I'm interviewing for another job, and I'm really close to getting it.

Rob: You were just hired here a few weeks ago. I can't believe you're thinking about leaving already.

Adnan: Yeah, I know. But the job I'm interviewing for is a dream job. I'd be a tester at a video game development company.

Rob: **No kidding?** Wow. Well, I still don't think it's right for you to **jump ship** like that, but all right. I'll cover for you.

Adnan: Thanks a lot. I'm going to **take off** now.

Rob: Hey, Adnan?

Adnan: Yeah?

Rob: If you get the job, do you think you could ask them if they need anyone else?

Adnan: **Will do.**

About the Conversation

1. Why does Adnan ask Rob to cover for him?
2. How does Rob initially react to the request?
3. What favor does Rob ask of Adnan?

Your Turn

8 Reading 

Before Reading

Read the passages and make a list of the unusual jobs.

You Do *What* for a Living?

When you were a kid, what did you want to be when you grew up? Perhaps a doctor, a teacher, or a firefighter? You probably didn't consider becoming a greeting card writer or a snow researcher (a person who collects ice crystals in snow to analyze the effect of pollution on an area of snowfall). Yet thousands of people around the world earn a living performing unusual jobs that most people have never even heard of.

Take Lily Martinez, for example, she has a job that girls around the world would dream about doing—if they only knew about it! Martinez is a doll fashion designer. She remembers, “As a girl, I would design one-of-a-kind outfits for my dolls.” Her work is very similar to the work of regular fashion designers. She analyzes fashion trends, chooses fabrics, draws design sketches, and keeps a close eye on the styles of Paris and New York. Only she does all this to create clothing for 11 ½-inch (29-centimeter) dolls!

Do you have an artistic flair and an interest in science? Do you have a strong sense of taste, smell, and imagination? Then you might make an ideal flavorist. A flavorist is a person who creates natural and artificial flavorings that go into foods. Their work entails first identifying the individual chemicals found in nature. Then they recreate the flavors using different chemical combinations. Such manufactured flavors often last longer, have a stronger flavor, and smell better than flavors found in nature. These flavors can also avoid the allergens sometimes contained in natural flavors.

According to Carol Militescu, a senior flavorist, there is not one single way to create a flavor. “Different chemical combinations can make the same flavor. You might think the flavors are identical, but how you put the chemicals together makes them very different.” Militescu says that to be a successful flavorist, it is essential that you “think outside the box.”

But perhaps you would prefer a job working with animals? If so, you might consider a career as an elephant pedicurist. It may sound silly, but keeping elephants' nails clean and trim is critical to their health. Like human nails, elephant nails grow continuously. Elephants in the wild wear down their nails naturally, but captive elephants have fewer opportunities to roam. Elephant pedicurists scrape the bottom of the elephants' feet to get rid of calluses, dirt, and embedded rocks that can cause infection. They also trim, file, and shape the elephants' nails.

Mike Hayward, the elephant pedicurist for the Ringling Bros. and Barnum & Bailey Circus®, loves his job. He gives pedicures to his twelve elephants every five weeks. The elephants generally cooperate with Hayward, waiting patiently through the two-hour process. Says Hayward, "It's almost like not going to work because the elephants are like my family."

So the next time you mull over your future career path, you might want to consider some non-traditional career options. After all, there just may be a new flavor waiting to be discovered, or an elephant whose feet will benefit from your expert care.

After Reading

Answer the questions.

1. What is Lily Martinez's job?
2. What are some of her responsibilities?
3. Describe what a flavorist does.
4. What are some of the benefits of manufactured flavors?
5. What does giving an elephant a pedicure entail?
6. Why is it important to give pedicures to captive elephants?

9 Speaking

1. What do you think of the jobs described in the reading? Do you find any of them interesting? Why? Why not?
2. Think about the list of unusual jobs in the chart. Have you ever heard of them? Find out what they are and complete the chart with the information.

	The unusual job	What is it?	What does it entail?	Do I like it or not?

2	golf ball diver			
3	cheese sprayer			
4	gum buster

The Job of an Arborist

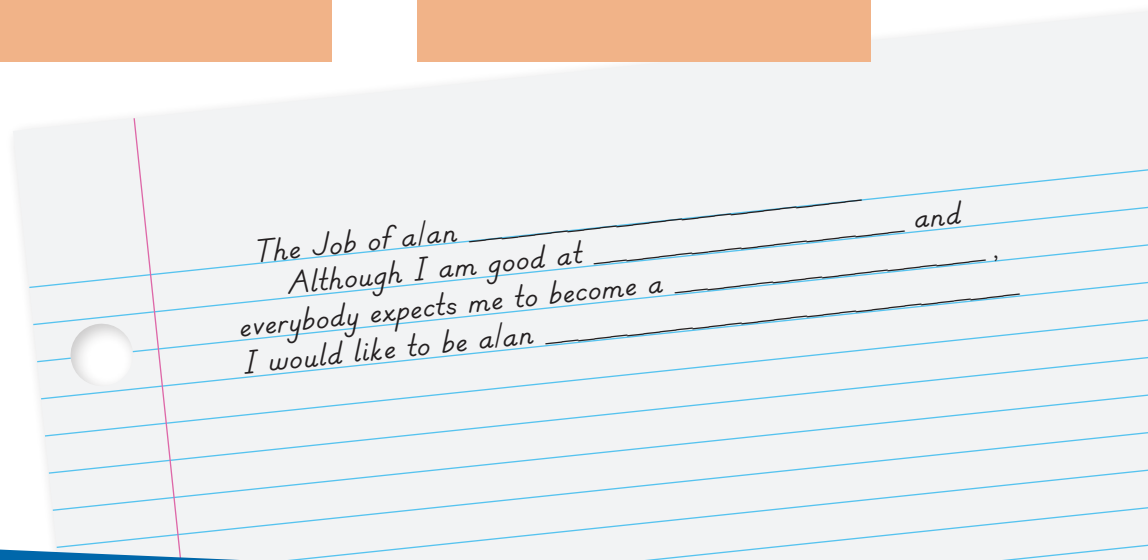

Although my parents would like me to become a doctor or a lawyer, I am interested in a very different kind of job. I would like to be an arborist, a sort of doctor for trees.

To become an arborist, it is essential that you have a related bachelor's degree, for example in forestry, as the more you know about trees the better you will be able to do what is expected of you.

Arborists are hired by individuals or organizations to keep trees healthy and attractive. They fertilize, prune, plant, and cure trees. In other words, they are a kind of official "tree carer." They are considered experts in their field. For this reason, they need to attend workshops and seminars throughout their career in order to keep up with developments.

I think it is perfect for me. I am interested in working in nature and taking care of things. I like trees. I am patient, methodical, and hard working. Finally, given current trends towards greener alternatives, I think there will be plenty of work for arborists in the future, so unemployment will not be a problem.

- B. 1.** Write an essay about an unusual job you might like to have.
- 2.** Before you write, think about and/or find on the Internet:
- a description of the job
 - the background you should have for this job

Writing Corner

When you write an opinion essay:

- note down what you know about the topic and collect new information.
 - note down your personal views on the topic and express your feelings and opinions.
 - combine your views and feelings with the relevant information and organize each paragraph.
- Remember that it is your essay and your voice needs to come through.

3 Grammar

Gerunds After Verbs

Gerunds are the *-ing* form of a verb. They act like nouns and answer the question *what*.

I recommend **turning off** the lights when you leave the room.

Our class enjoys **learning** about ways to help the environment.

We use gerunds after certain verbs, such as:

advise	enjoy	intend	quit
begin	finish	keep	recommend
can't stand	go	like	start
consider	hate	love	stop
continue	imagine	prefer	suggest

Infinitives After Verbs

An *infinitive* is *to* + the base form of a verb. Like gerunds, infinitives act like nouns and answer the question *what*.

Don't forget **to reuse** that plastic container.

Do they intend **to buy** a hybrid car?

We use infinitives after certain verbs, such as:

agree	continue	intend	offer	start
ask*	decide	learn	plan	try
attempt	expect*	like	prefer	want*
begin	forget	love	promise	
can't stand	hate	need*	remember	

*These verbs can be followed by an object before the infinitive.

They *want* **to plant** a garden. / They *want* us **to plant** a garden.

A. Circle the correct verb forms. Sometimes both the gerund and the infinitive are possible.

- Do you want **(1. having / to have)** a positive impact on the environment? I suggest **(2. giving / to give)** these steps a try:
- Do you hate **(3. throwing / to throw)** away old clothes in the garbage? Consider **(4. giving / to give)** clothes that no longer fit you to other people who can wear them.
- Quit **(5. using / to use)** disposable batteries. Begin **(6. using / to use)** rechargeable batteries.
- Learn **(7. buying / to buy)** products with less packaging. Attempt **(8. buying / to buy)** large containers of water, juice, and soda instead of individual serving-size containers.
- Learn **(9. avoiding / to avoid)** creating trash whenever possible. For example, when ordering food, avoid **(10. taking / to take)** any unnecessary utensils and napkins.

- Start **(11. making / to make)** a shopping list before you go shopping. This will help you stop **(12. buying / to buy)** things you don't need on impulse.

8 Reading

Before Reading

Read the passage and underline ways that your country can replace utilities such as electricity, natural gas, and water from the local supply systems.

Living Off the Grid

Imagine heating your home without relying on the local power plant. Wouldn't it feel good to meet your need for electricity without harming the environment? For a growing number of people, these ideas have become reality. Out of concern for the environment and a desire for self-reliance, these people have made the bold decision to live off the grid.

What exactly is "the grid"? The grid, short for "the power grid," is the linked system that supplies electricity to most homes and buildings in developed nations. Homes that are off the grid are not hooked up to the local power supply. Instead, they produce all of the energy they consume. As a result, people living off the grid avoid the environmental and financial costs that come with on-grid living.

The key to getting off the grid is replacing electricity supplied by a power plant with a renewable energy source, like wind or solar power. Buildings that use solar power have solar panels on the roof or near the building. When the sun's light hits the panels, the panels collect the energy. Wind power is collected by turbines, also known as windmills. When the wind blows, the blades move, producing energy which is turned into electricity by a generator.

Some people go even further off the grid. In addition to setting up a renewable energy source, they also have an independent source of water. They dig wells to access ground water or use a cistern, a type of tank, to collect rainwater. Those most committed to living off the grid may even lack garbage service. These people generally live a life that creates very little waste, growing their own organic fruits and vegetables, and raising chickens and goats for eggs and milk. By avoiding the consumption of packaged foods, they greatly reduce paper and plastic waste.

As challenging as it may be to live off the grid, most off-gridders feel that the benefits far outweigh the difficulties. Jorge and Ella Alvarez, off-gridders in northern Arizona say, "We love being off-grid. It's definitely hard work, but it puts everything in life into perspective. It's surprising to find just how much you can do without. Many people think we have a harsh and depressing lifestyle. Nothing could be further from the truth. We see living off the grid as a gift that has allowed us to be more in touch with nature and each other."

This view is shared by Wendy Johnston, a mother of three, living off the grid with her family in Ontario, Canada. Wendy recalls, "In the house I grew up in, we would leave lights on all day, the thermostat up at night, and water running without a second thought. I wanted my children to be raised with more respect for the environment and an awareness of the impact that they have on it. My children don't take energy for granted. I love the fact that they are learning how to take care of the earth while, at the same time, learning to be self-sufficient."

Wendy admits that living off the grid has its difficulties. For example, the Johnstons' power usually goes down a few times a year. However, Wendy reflects, "The funny thing is that these often turn out to be some of our best times as a family. The power outages have an unexpected way of bringing us closer together. We read books and play games by candlelight, or we get together and tell stories."

Living off the grid entails sacrifices, and is certainly not for everyone. But for the thousands of people who have made this bold choice, life off the grid is filled with rewards that can't be matched by the conveniences and luxuries of life on the grid.

Going Green

I realized how sensible "going green" was when I started noticing the amount of waste accumulated from all the packaging. We're a family of three and we manage to accumulate a bagful of recyclable waste every day. We are careful to use a special disposal unit for recyclable materials, but we are not sure it is always effective. Is it actually recycled?

We decided to search for options. We found out that there were many stores near the central market that sold goods by weight out of large canisters or burlap bags. Rice, beans, flour, sugar, oil, butter, cheese, and a lot more are available off the counter, free of

packaging. When we compared prices, we decided to never look back.

A lot of time, money, and resources are invested in packaging as a way of making the product more attractive for consumers. Glossy wrappers, beautifully designed boxes, vacuum wrapped coffee, plastic containers, colorful lids, and a lot more, have a magnetic effect on buyers. We, on the other hand, have to label and fill our own containers, before we can put away our shopping. But, we make better use of cupboard space, spend a lot less, and protect the environment. You should try it!

Environmentally harmful practices	'Go greener' practices	Steps our local council can take to help

I suggest the council makes it a priority to provide recycling bins

2. What are the most important things in your home?
3. Describe both the interior and exterior of your dream home.

It is the laugh of a baby, the verse of a mother, the strength of a father, warmth of loving hearts, lights from happy eyes, kindness, loyalty, comradeship. Home is the first school . . . for young ones, where they learn what is right, what is good, and what is kind, where they go for comfort when they are hurt or sick; where joy is shared and sorrow eased; where fathers and mothers are respected and loved, where children are wanted; where the simplest food is good enough for kings because it is earned; where money is not as important as loving-kindness; where even the tea kettle whistles from happiness. **That is home!**

- A. Look at the photos. Where do you think these houses are? What are they made of?
1. Read the text and find out.
 - What is adobe?
 - What is special about the house?
 - Are the back and front of the house similar? How do you know?
 - What is part of the floor made of? Why?
 2. Read the text again, find out, and highlight.
 - Which rooms does the writer mention?
 - What can the writer see, smell, and feel in the house?
 3. Would you want to live in a house with a glass floor? Why? Why not?

A home over the canyon

When people talk about unusual homes, I think of our friends' dream home in New Mexico, on which they spent all their savings building it.

On the outside, the house looks like most adobe homes in the area. Adobe is made from sand, clay, water,

and organic material that are shaped into bricks and left to dry in the sun. Our friends' house is a beautifully-designed, large adobe home with a drive and a large cactus tree near the entrance. It has soft lines, and is less angular than conventional urban homes.

When you go through the door, you find yourself in a beautiful, spacious room with large windows and sunlight streaming in. Large windows are unusual for adobe homes. But this is no ordinary home. Part of the house juts out of the adobe shell that can be seen from the street and stretches to the end of a cliff. You

walk past a kitchen fitted with a cast-iron stove and hand-made wooden cabinets that give off the most enticing smells of cumin and chilies and herbs. It is so real; you can almost taste the food.

The spacious room that you step into when you enter the house stretches in all directions. You walk towards the sitting area. When you get closer, you need to brace yourself as the most spectacular view imaginable unfolds before your eyes. All of a sudden, you are no longer stepping on wood, the floor is hard, and your footsteps make a strange resounding sound. You look down and wonder whether you have been transported in space and time; you are looking into the gaping canyon. You think you are falling into it; you can almost feel the air whooshing past.

Part of the floor is made of thick custom-designed glass. You might like it or hate it, but however you feel you have to admit it is unique. This is the way I feel about this house and the day I spent there. It was a unique, unforgettable experience even if I wouldn't choose to live with a glass floor over a canyon for the rest of my life. Would you?

- B. 1. Choose a home to write about. It can be yours or another home you know well.
2. Remember/think about what you see, hear, feel, and smell in various rooms of the house.
3. Make notes in the chart and use them to write a descriptive essay about the house.

My Grandparents' House

The home that means the most to me is my grandparents' house. Each time I go there, I feel a sense of comfort and warmth. Now that I'm in college, I don't get to spend much time there. But whenever I miss it, I just imagine it. When you first walk into my grandparents' house...

Writing Corner

When you write a descriptive essay:

- brainstorm about the topic and write down as many notes as you can about your memories and impressions of the house/place.
- make an outline of your essay and decide what each paragraph/section is going to focus on.
- include factual information, e.g. size, number of rooms, etc. as well as feelings/impressions.
- visualize the place you want to write about so you can help your reader visualize it too.
- use different senses, i.e. sight, feelings, smell, sound, and taste to make it more vivid.
- remember that smell is usually the most vivid and best retained memory.
- think of the first and last thing(s) you see, hear, feel, or smell (or almost taste) when you are there.

1 Listen and Discuss

Make a list of what you already know about the Olympic Games. Then read the passage and underline the facts about the Games that are new to you.

Fascinating Olympic Facts

The ancient Olympic Games began in Greece in 776 B.C.E. and were held every four years until 393 C.E. It wasn't until about 1,500 years later, in the mid-1800s, that the games were revived in Greece. But the Olympics didn't become the event we know today until 1896, when a French historian named Pierre de Coubertin had the idea of making the games international, and founded the International Olympic Committee.

Medals weren't always a part of the Olympics. Giving medals to winners is a practice that began in 1896, and between 1896 and 1904, the top prize was a silver medal.

The youngest person that has ever competed in the Olympics was Dimitrios Loundras, a ten-year-old gymnast on the 1896 Greek gymnastics team.

Lighting the Olympic torch does not involve a match. It is lit using only the light of the sun and a special mirror.

At various times, the Olympics have included such unusual events as a swimming obstacle race, a tug of war, and live pigeon shooting.

The gold medal is not made of gold! It's actually 92.5 percent silver with a covering of six grams of gold.

The marathon is an event named after the run of a Greek soldier, Pheidippides. In 490 B.C.E., Pheidippides ran from Marathon to Athens (about 26 miles, or 42 kilometers) to deliver news about the Greeks' success in a battle. Running through the mountains and rocky land was extremely difficult. After Pheidippides arrived in Athens and delivered his news, he fell down and died. The first modern Olympics in 1896 included a race of 26 miles (42 kilometers), called a *marathon*, to commemorate Pheidippides' run.

Because the Greeks originated the Olympics, the Greek team always leads the procession of athletes during the opening ceremony of the Olympic Games. They are followed by the other teams in alphabetical order. The hosting country goes last.

Dropping sports from the Olympics is not uncommon. In fact, many popular sports have been dropped through the years, including rugby, golf, baseball, and softball. Adding a new event can only happen if another one is dropped.

8 Reading

Before Reading

Which winter sports have you watched, heard/read about, or participated in? Where are winter sports more popular? Why?

A country born on **SKIS**

Norway, a small country of 5.5 million inhabitants, has won more Winter Games medals than any other nation. It became the first country to win 100 Olympic gold medals, and reached the 300-medal milestone in the Winter Games of 2010.

Norwegians go cross-country skiing , ski-jumping , or downhill skiing on weekends, on holidays, and after work. When the snow starts melting in spring, they move it up to the mountains. And if there is no access to snow, they skate on ice. 2,500 lit tracks all over the country make it possible for people to ski in winter, although it gets dark early.

Norwegians have enjoyed skiing for thousands of years. A rock carving in Nordland County in the north provides evidence that the use of skis dates back to the Stone Age. Until about a century ago, skis were the only means of transport in winter and essential for hunting.

Skiing did not become a mass sport until the mid-1880s when the first competitions were arranged. Sondre Norheim, who is considered the father of modern skiing, was the originator of the Telemark skis, which are narrower in the middle than at the front and back and have stiff heel bindings. The shape made turning easier, and the heel binding allowed skiers to jump from rooftops or over rocks without losing their skis.

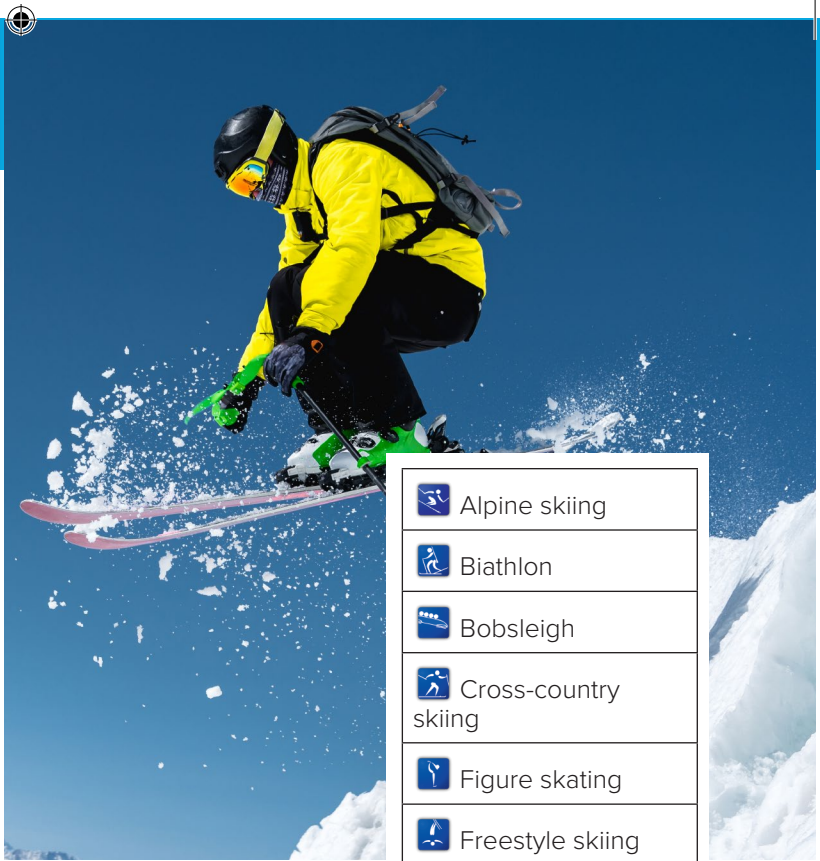

Polar explorers made skis known internationally and demonstrated their unique merits on terrain that

could not be crossed any other way. Roald Amundsen was the first man to reach the South Pole in 1911, on skis. Fridtjof Nansen crossed the Greenland interior on skis in 1880. Other explorers have followed the routes used by these two famous explorers and skied to both the North and South Poles.

Annual cross-country events are organized throughout Norway, attracting a great number of participants. Such events are not restricted to athletes, but include “keep fit” categories that allow more people to participate. Enjoying the exercise and nature is as important as achieving the fastest time and winning prizes in these events.

Biathlon  was first included in the Winter Olympic program in 1960. It is a cross-country skiing race interspersed with shooting contests. Norwegians are very strong cross-country skiers and have won most of the cross-country skiing medals in the Winter Olympics over the years.

Alpine skiing  has also gained a lot of followers, as has freestyle , which is a relatively newer sport. Norwegians are among the world’s best in freestyle.

	Alpine skiing
	Biathlon
	Bobsleigh
	Cross-country skiing
	Figure skating
	Freestyle skiing
	Ice hockey
	Luge
	Nordic combined
	Short track
	Ski jumping
	Speed skating

Speed skating  used to be a large spectator and participation sport on a par with cross-country skiing. Cross-country skiing, ski jumping, and Alpine skiing seem to have taken over and overshadowed speed skating, although Norwegian speed skaters are among the best in the world.

In winter in Norway, every sheet of ice is covered with children playing hockey  or skating. Indoor rinks are also used for skating and ice hockey. While other Scandinavians huddle around fireplaces, Norwegians bundle up and go out skiing. This could explain the reason why they have won such an astounding number of medals in the Winter Olympics.

The main idea of each body paragraph must relate to and support the topic sentence in the introduction.

As you write the body of your essay, ask yourself:

- Does each paragraph have one main idea?
- Is this main idea supported by examples, definitions, facts, and/or statistics?

Customs and Gestures in Korean Culture

To understand the perspective of Korean people, it is important to understand their customs and gestures. I believe that Korean customs and gestures show that the Korean culture is quite traditional and conservative.

One aspect of Korean culture that is traditional and conservative is greeting people. Korean people usually bow when they meet one another. When Koreans are introduced to someone for the first time, they generally do not smile. Smiling is reserved for informal occasions. Koreans also consider staring impolite. We prefer to make only brief eye contact. When meeting a Korean person, I suggest you avoid looking into his/her eyes for more than a moment or two...

4 Reading

Before Reading

1. Has anyone ever played a trick on you? If so, explain what happened.
2. Have you ever played a trick on someone else? If so, explain what you did.

Can You Believe They Believed It?

In many countries around the world, the first day of April is a day for playing tricks and pulling pranks. Many of the most amusing and memorable tricks that have been played on this day have been perpetrated by the media.

Perhaps one of the funniest pranks to have ever been pulled off happened on April 1, 1957. On this day, a well-respected British news show called *Panorama* aired a segment focusing on a supposed spaghetti harvest in southern Switzerland! The anchorman explained that the mild winter had resulted in a huge spaghetti crop. As the anchorman gave details about the “spaghetti crop,” video footage was shown of Swiss people pulling fresh, long strands of spaghetti off of “spaghetti trees” and putting them in baskets.

Convincing viewers wasn’t very difficult. Apparently, this segment was realistic enough to fool a huge number of people. Hundreds of fascinated viewers called into the television station wanting to find out how they could grow their own spaghetti tree. They were told, “Place a sprig of spaghetti in a tin of tomato sauce and hope for the best.” As one studio worker remembers, “The more people called, the harder we laughed.”

Another nationally broadcast prank occurred in Sweden in 1962. At the time the country had only one television channel, and it broadcast in black and white. The station had their technical expert announce to the viewers that a new technology had been created. Astonished viewers listened as he explained that this technology would make it possible to see color images on their black and white television sets. Accomplishing this was easy, he assured the audience. He explained that all that viewers needed to do to convert their black and white televisions to color was to pull a nylon stocking over the screen. He also advised moving one’s head very carefully back and forth to see the best picture. Many viewers got excited, and thousands tried it. Today many Swedes still recall family members

running around the house trying to find nylon stockings to place over their television set.

Another remarkable prank was pulled by an Australian news program in 1975. On the program that evening it was announced that Australia would be converting to “metric time.” It was explained that under metric time, there would be 100 seconds in a minute, 100 minutes in an hour, and 20 hours in a day. It was also explained that seconds would become *millidays*, minutes would become *centidays*, and hours would become *decidays*. The report had many convincing details, including an interview with South Australia’s deputy premier and a shot of Adelaide’s town hall clock, with its “new” 10-hour metric clock face. Many people fell for the trick. Some even got angry about it. One viewer was particularly irritated because, as he explained,

he had just bought a new clock and thought that it was now useless.

Sometimes it seems the sillier the hoax, the more likely people are to fall for it! So the next time you hear something that sounds too silly to be true, look at your calendar and make sure that it isn’t April first!

What Makes People Successful?

Who do you think is the most successful person you know? Who do you think is the least successful?

In order to answer these questions, we first need to define success. Everyone has a different definition of what makes someone successful or not. Many of us place great value on performance, on achievements, or on reaching various goals. Others associate success with material goods, measuring it by how much one can acquire. Others measure success by how much they can contribute to the well-being of their families, or to the community and society in general. There are many other definitions, but arguably, most people associate it with becoming rich, famous, and respected at work. Yet, it doesn't have to be that way. Being successful could mean simply being satisfied with oneself and one's career. For many people, a successful person is someone who feels that his or her work and life in general offer an exceptionally high degree of satisfaction.

But how does one get from here to there? How does one reach this feeling of satisfaction with life and career? It seems that successful people consistently do two things:

- They use their natural abilities in their work.
- They set career and life goals.

In other words, successful people choose careers where they can use their natural abilities, or do what comes naturally to them. For example, successful teachers are people who instinctively know how to help people learn, and the best doctors are those who know how to listen to people. Successful people know where they are starting from, and what direction they want to give their lives and careers, even if it is something as simple and wonderful as raising a happy family.

What are your natural abilities? What are your career and life goals? If you can answer these questions, you are on your way to achieving success.

1. ____ There is a general consensus on the definition of success.
2. ____ A lot of people think that you are successful if you are rich and famous.
3. ____ Successful people choose careers that match their skills.
4. ____ Successful people don't plan their lives.
5. ____ Doing what comes naturally to you helps make you successful.
6. ____ Raising a happy family is not enough to be considered successful.

2 Going Green

C Read the letter. Circle the gerunds.

Dear Editor,

I am writing because I have a concern about our community and our environment. I have been living in this town for three years now. I love living here because most people are interested in protecting the environment. However, I have noticed that when I go shopping, most people have been using the plastic bags that the store provides. I quit using those years ago because they are damaging our planet. I can't stand seeing people who say they care about the environment using them. I recommend buying three or four canvas bags at the store and using them every time you go shopping. I advise keeping them in the car or near your front door so that you remember to take them when you go to the store. By making small changes, I think we can make a big difference to our world.

Thank you,
Bagging Betty

Buying Locally Grown

Eating organic fruits and vegetables is one way to help our planet since it does not involve spraying harmful pesticides and herbicides into the environment. However, there are many people who say that eating organic isn't enough, and that it's more important to eat locally grown fruits and vegetables. The organic produce that you find in your grocery store is often shipped halfway around the world. This means that it is both creating air pollution, and that it's a few days old by the time it gets to the store. Locally grown produce is better because it does not contribute to pollution. Also it's the freshest possible, so you get the full amount of its vitamins and nutrients.

Community Supported Agriculture (CSA):

One way to get locally grown produce is to become a member of a Community Supported Agriculture (CSA). A CSA is of a group of individual people who promise to support a farm. This way, the farmland becomes the community's farm, with both the farmers and the consumers sharing benefits and risks. Community Supported Agriculture began in the early 1960s in Europe and Japan as an answer to concerns about food safety and the urbanization of farm land. Over the last 20 years in the U.S., CSAs have become a popular way for people to buy local, seasonal food directly from a farmer.

How a CSA works:

A farmer offers a certain number of "shares" to the public. The share is usually made up of a bag of vegetables. People who are interested in becoming members buy a share before the farming season begins. Then, once the season begins, they get a box of seasonal produce each week throughout the farming season (usually about 20 weeks long). This arrangement creates many advantages for the farmers and the consumers.

Advantages for farmers	Advantages for consumers
<ul style="list-style-type: none"> • They get to spend time selling the food early in the year when they aren't as busy. • They get paid early in the season, which helps with the farm's cash flow. • They have an opportunity to get to know the people who eat the food they grow. 	<ul style="list-style-type: none"> • They get to eat the freshest produce possible. • They get to learn about new vegetables and new ways of cooking. • They get to know the farmer who grows their food and learn more about how food is grown. • They are contributing to the locally grown movement, thus not creating more pollution by having food shipped.

- One problem with organic fruits and vegetables is that _____.
 - they're grown with pesticides
 - they're often shipped from far away
- Produce* probably means _____.
 - fruits and vegetables
 - farm animals and meat
- CSAs began in the 1960s in _____.
 - Europe and Japan
 - the U.S.
- A share of the farm is _____.
 - vegetables that you buy at the market every week
 - a bag of vegetables that you buy before the growing season, but pick up every week
- One benefit of a CSA for both farmers and consumers is that they get to _____.
 - know each other
 - learn about new vegetables and new ways of cooking

J READING

Read the article about the White House. Then answer **true** or **false**.

The White House is the official residence and main workplace of the President of the United States. It is in Washington, D.C., and was built between 1792 and 1800. The White House has four stories—the Ground Floor, State Floor, Second Floor, and Third Floor, plus a two-story basement. Today, the White House Complex includes the Executive Residence (where the president and his family live), the West Wing (the location of the Oval Office), the East Wing, and the Old Executive Office Building, which houses the executive offices of the President and Vice President.

There are many famous rooms in the White House. The Entrance Hall is the primary and formal entrance. It is located on the State Floor, and is entered from Pennsylvania Avenue. It opens to the Grand Staircase, which connects the State Floor to the Second Floor of the building. There are three state parlors on the State Floor of the White House: The Green Room, The Blue Room, and the Red Room. They are each decorated in shades of their respective color and have been used for small receptions, and teas.

The East Room is the largest room in the White House. It is used for entertainment, press conferences, ceremonies, and occasionally for a large dinner. The White House's oldest possession, a portrait of George Washington that was painted in 1797, hangs in the East Room next to a portrait of his wife, Martha Washington, which was painted in 1878.

The State Dining Room is the larger of two dining rooms on the State Floor of the White House. It is used for receptions, luncheons, and larger formal dinners. The room seats 140 guests. The Family Dining Room is also located on the State Floor. The room is used for smaller and more private meals than those served in the State Dining Room. Today the president uses the Family Dining Room less for family and more for working lunches and small dinners. Family dinners are usually served on the second floor in the President's Dining Room.

Minaret of Jam, Afghanistan

The Minaret of Jam stands in a remote valley, surrounded by barren mountains. It was built in the 12th century and it is the only well-preserved building of the period. It is 65 meters tall and was built with baked-bricks. The circular minaret, which rests on an octagonal base, had two wooden balconies and a lantern at the top.

The minaret is famous for its intricate decoration of calligraphy etched in stucco and glazed turquoise ceramics. It was nominated Afghanistan's first World Heritage Site in 2002.

Salwa Palace, KSA

Salwa Palace is the largest palace in the historical at-Turaif district of ad-Dir'iyah. It was the first palace built by Imam Mohammad Bin Saud in 1750. His successors later added to the complex, which includes 7 main units, a mosque, an audience hall, a treasury, and a well, which cover some 10,000 m².

Salwa Palace is a unique example of Nadji architecture and illustrates the ingenious use of adobe, not only as a material suited for the extreme desert climate, but as a means to create beautiful geometric designs. At-Turaif was inscribed on the World Heritage List in 2010. It has been restored to a large extent, and it has the potential to become one of the biggest living heritage museums in the world.

Burj Khalifa, UAE

Burj Khalifa in Dubai, at 828 meters, is the tallest building in the world, topping the previous record holder, Taipei 101, by 319 meters. It is also called "the Needle" because of its top section that gets as thin as a needle as it tapers to the top.

The building took six years to complete and was officially opened in January 2010. It has 168 floors, which is the highest number in the world, but not all of them are large enough to use as residence or office space. The Boston Red Sox

Baseball, often called “America’s Pastime,” is considered by many to be the most popular sport in the U.S. One of the oldest and most famous baseball teams in the world is the Boston Red Sox. The club was founded in 1901, as one of eight teams in the American League. They were a dominant team in the new league—winning their first World Series in 1903. They won four more championships by 1918. Since 1912, the Red Sox’s home ballpark has been Fenway Park.

The Sale Of The Bambino

While the first seventeen years in Red Sox history were successful, after the 1918 win, they went into one of the longest championship droughts in baseball history. In 1919, Red Sox owner Frazee sold famous slugger Babe Ruth, who had played the previous six seasons for the Red Sox, to the rival New York Yankees. Even though Ruth had just broken the single-season home run record, hitting 29 in 1919, Frazee sold him. Legend has it that Frazee did so in order to finance a Broadway play. Many people said that they would lose for 100 years because they had sold Babe Ruth, who was also known as the Bambino.

Evidence Of The Myth

Over the years, the Red Sox had many excellent players, but nonetheless, they were never able to win the World Series. They came closest in 1986, when they lost the final game in extra innings because a slow ground ball rolled through the first baseman’s legs. This infamous moment in baseball history fed the myth that the Red Sox were destined to lose for the rest of their career.

Ending The Losing Streak

Finally, the losing streak ended in 2004, when the team won their sixth World Series Championship. Since 2003, the Red Sox have competed in five American League Championship Series, have won two World Series in 2007 and 2013, and have emerged as arguably one of the most successful Major League Baseball teams of the last two decades.

1. What is the name of the Red Sox home stadium?

2. How did the Red Sox do in the early years?

3. What started the myth about the Red Sox?

4. How did they lose the 1986 World Series Championship?

5. When did the losing streak finally end?

1. _____

A bat and ball sport played between two teams of nine players each. The objective of the game is to score runs by hitting a ball with a bat and touching the four bases arranged at the corners of a ninety-foot square or diamond-shaped field. Teams take turns batting and fielding. The fielding team tries to stop three hitters of the batting team from touching the base. The players on the batting team take turns hitting the ball that the pitcher of the fielding team throws. It has become the national sport of the United States.

2. _____

A team sport in which two teams of five players try to score points by throwing a ball through a hoop mounted on a backboard. The team with the most points at the end of the game wins. The ball can be advanced on the court by bouncing it while running or passing it to a teammate. Players are not allowed to take steps carrying the ball in their hands. Rule violations are called “fouls.”

3. _____

It is a game that can be played by two or four players. The players hit a lightweight, hollow ball back and forth using rackets as they stand at the two ends of a hard table divided by a net. Players have to hit the ball to return it to their opponent after only one bounce. The pace of the game is very quick and players need to react accordingly.

4. _____

It is claimed to be the world’s most popular martial art. A loose translation of its name could be “the art of the foot and fist” or “the art of kicking and punching.” It combines combat techniques, self-defense, exercise, as well as philosophy.

5. _____

It originated in Britain in the late 19th century. It is usually played between two players (singles) or two teams of two players each (doubles). Each player uses a racket to strike a hollow rubber ball covered with felt over a net and into the opponent’s side of the court. The surface of the court is usually clay, asphalt, or grass.

For this reason, large amounts of chocolate are imported to meet the demand. For some, chocolates are a symbol of affection and care, and totally in keeping with the spirit of Eid.

Dates are naturally in demand all year long and more so during Ramadan. Dates, like chocolates, are available in different varieties. Nowadays, dates are stuffed with toffee and dried fruit, almonds, pistachios and walnuts, or dipped in chocolate!

Chocolates are available in countless varieties and forms - dark, light, white, bitter, semi-sweet, sweet; with wafers, caramel or fruit; in powder or syrup form; in different sizes and shapes; some wrapped in foil or cellophane or tiny boxes; and others arranged in elaborate boxes that contain an assortment of chocolates.

Elaborate arrangements of chocolate have become the trend for gifts, gaining more ground by the day. The busiest time for confectioners in the Kingdom is the post- Ramadan period when numerous orders for chocolate arrangements have to be filled, costing anywhere from SAR 200 to SAR 2,000 or more.

6. Use capitals for the names of organizations, but not for their products.
7. Use capitals for nationalities, languages, and religions.
8. Use capitals for family words when they appear alone or followed by a name, but don't use them when the word has a possessive pronoun or an article before it.
9. Use capitals for the names of holidays and historical events.

Error Correction: Unnecessary Words

When checking your work, you need to think carefully not only about whether or not words are missing, but also if some words are unnecessary, either grammatically or because they are repeating something you've already said. Look at the guide below to help you.

1. the: *The* is commonly included by accident when you are translating from your own language.

Remember, for example, that English doesn't use **the** before nouns when talking about things in general, or when talking about abstract nouns.

I don't think students should be given more homework.

Unemployment is one of the biggest problems in the developed world.

2. Prepositions: Sometimes a word in your native language needs a preposition before or after it, but in English it may be unnecessary. Think carefully—are you writing in English or simply translating?

I went home at six o'clock.

(**NOT:** I went to home at six o'clock.)

3. and: Although it is not grammatically incorrect, we do not usually include **and** in lists until before the final item.

I went shopping and bought a suit, three shirts, a pair of shoes, and a tie.

4. Words that have the same meaning: Be careful not to repeat yourself by using words that have the same meaning. For example, something can be big or large, but saying *A big, large tiger* sounds very strange, because it repeats the same concept.

5. Contractions: Don't repeat words that are already present in contractions.

Jack's been to Kenya.

(**NOT:** Jack's has been to Kenya.)

6. Personal pronouns: Don't use personal pronouns if you've already used a name in the same clause.

Lindsay lives in Mexico.

(**NOT:** Lindsay she lives in Mexico.)

A. Read the sentences and write the number(s) of the rule(s) each one illustrates. Correct the mistake(s) in each sentence.

Punctuation 1

Although your language may use the same punctuation symbols as English, it is important to realize that English may have different rules for using them. Punctuation in English can affect meaning, and poorly punctuated writing is very difficult for the reader to understand.

1. Periods: Use a period after statements and commands.

I've decided to change jobs.

Make me a cup of coffee, please.

2. Question marks: Use a question mark after, but never before, questions. Don't use one after reported questions, use a period instead.

"Have you got any change?"

"What time is it?" she asked.

She asked me what time it was.

3. Exclamation points: Use after surprising pieces of information and exclamatory phrases or sentences.

I got a promotion!

Oh, stop it!

No way!

4. Quotation marks: Use quotation marks at the beginning and the end of direct speech. Other punctuation usually goes before the end of the quotation marks. Quotation marks are also often used to show the title of articles, poems, stories, etc.

Mark said, "I really don't think you want to do that."

Have you ever read "The Road Not Taken" by Robert Frost?

5. Apostrophes: Use apostrophes in contractions and in the formation of possessives.

Please don't do that.

He's so smart it's unbelievable.

A. Look at the sentences below and include the correct punctuation marks (commas and capital letters are already given).

The comma has various uses in English, often helping to divide various pieces of information that appear in the same sentence.

Use commas:

- **to separate items in a list**
We went to Spain, France, Italy, and Greece on vacation.
- **after *yes* and *no* in answers**
Yes, I did. No, I haven't seen him recently.
- **before conjunctions (e.g., *and*, *but*, *so*) that separate two clauses**
He didn't like living in Washington, but he didn't want to leave his job.
- **to separate names of people in direct address**
How very nice to see you again, Mr. Smith.
- **after transitional expressions (e.g., *for example*, *however*, *furthermore*)**
Successful products today are truly international. For example, Microsoft programs are recognized all over the world.
- **to separate adjectives that modify the noun separately**
Gerry was tall, athletic, and very clever.
- **to separate quotation marks for direct speech from the rest of the sentence**
"I'm bored," Tim said. "When are we going to do something different?"
- **to separate clauses**
As soon as I get to the office, I'll send you the report.
- **to separate non-defining clauses from the rest of the sentence**
Tony Wakefield, who came to Mexico in 2009, is a director.
- **to separate interjections**
I am, by the way, also going to Chicago.

Don't use commas:

- **when the conjunction does not separate two independent clauses**
I want to get married and have children.
- **for names when it is not direct address**
I spoke to Dr. Franklin and he said that it was no problem.
- **for defining relative clauses**
That's the man who stole my car!
